Re: AB 1288 (Addis): Registered Environmental Health Specialists.  
Support (As amended on April 10, 2025); Hearing: July 2

Dear Senator Menjivar:

On behalf of the Sacramento County Board of Supervisors, I write in support of AB 1288, which will expand the Registered Environmental Health Specialists (REHS) trainee pool and enhance and lengthen the training period used to prepare trainees to pass the state exam.

It has become challenging to recruit and retain REHS in Sacramento County. These specialists play a vital role in safeguarding our community through programs and activities, such as food safety, drinking water safety, body art inspections, onsite wastewater treatment system installation/repair, pool safety, and medical waste management.

Currently, certification for local REHS is administered by the California Department of Public Health (CDPH). The CDPH program ensures that a certified REHS has met adequate science education, training and experience requirements and has passed a comprehensive state examination. Limited examination offerings and strict time limitations governing how often a trainee may take the exam have resulted in trainees being reassigned or released – even if they have excellent job performance and wish to continue to pursue a career as a Registered Environmental Health Specialist. The current state exam passage rate averages around 60 percent. AB 1288 is critical to maintain high quality, community-responsive environmental public health programs in our community.

For these reasons, Sacramento County supports AB 1288. Please feel free to contact me at (916) 874-4627 or [deborde@sacounty.gov](mailto:deborde@sacounty.gov).

Sincerely,

A handwritten signature in blue ink that reads "Elisia De Bord".

Elisia De Bord
